elimination

OUR LOCATION

The company consists of
8 garment factories

CONSTRUCT

All our pattern makers are very well trained professionals, certificated by company Assyst. We are doing pattern in CAD Assyst, all lay files - using Automarket.com- cloud service, which provide us with the most efficient consummation of material use, with a most "fast speed".

BULLMER CUTTER

The company has been working for more than 3 years with cutting complex "Bullmer", which includes: automatic nesting and automatic cutting

In the same way, before the cutting, the measurement and sorting of raw materials is mandatory.

Thanks to the automatic cutting complex, all 8 factories are fully provided with a very high quality cut, this allowed to reduce losses at start-up, as well as to increase the efficiency at tailoring.
